PROFESSIONAL SUMMARY

MCA graduate with hands-on internship experience in Python, AI, and ML, combined with strong interest in business analysis and project coordination. Skilled in software development, project coordination, business analysis, and team collaboration. Passionate about building intelligent systems and seeking opportunities in Software Development, Business Analysis, and Project Management.

TECHNICAL SKILLS

Programming Languages: Python, Java

Web Technologies: HTML, CSS, JavaScript, Django

Database Management: MySQL, SQL Analysis

Data Analytics: Pandas, NumPy, Power BI, Excel, Data Visualization

AI & ML: Machine Learning, NLP, OpenCV, Jupyter Notebook

Tools & Technologies: Git, GitHub, VS Code, MySQL Workbench, Jupyter Notebook

Project Management: SDLC, Agile Concepts, Process Planning, Task Coordination

Business Skills: Business Analysis, Process Management, Requirements Gathering, Documentation

EDUCATION

Master of Computer Applications (MCA) | 2024 – 2026 (Completed)

Musaliar College of Engineering and Technology, Pathanamthitta

Bachelor of Science in Computer Science | 2021 – 2024

University of Kerala, Thiruvananthapuram

CGPA: 8.72

Senior Secondary Education (CBSE) | Completed: 2021

Al Ameen Public School, Pathanapuram

INTERNSHIP EXPERIENCE

Python, AI & ML Intern | 3 Months

NextGenPro Innovations Pvt. Ltd., Kochi

- Developed and tested AI/ML models using Python for real-world problem-solving tasks.
- Assisted in implementing machine learning workflows and data preprocessing techniques.
- Collaborated with developers in designing AI-based application modules.

PROJECTS

Intelligent Classroom Assistant System

- Developed an AI-powered classroom assistant using Computer Vision, NLP, and Machine Learning.

- Implemented facial recognition attendance, emotion detection, posture analysis, and automated feedback generation.
- Designed to improve classroom interaction and student engagement.

Technologies Used: Python, OpenCV, NLP, Machine Learning

Safe Migrate – Migrant Labour Safety and Monitoring System

- Developed a web-based labour safety monitoring platform using Django and MySQL.
- Implemented registration, complaint logging, and live status tracking modules.
- Designed modules to improve migrant labour safety monitoring and reporting.

Technologies Used: Django, Python, MySQL, HTML, CSS

CERTIFICATIONS

- NPTEL Certification – Database Management Systems (IIT Madras)
- Streamlining Your Work with Microsoft Copilot
- Business Analysis and Process Management – Coursera Project Network
- Microsoft Excel – Coursera Project Network

ACHIEVEMENTS

- Zonal Level Participant – Speak for India Competition conducted by Mathrubhumi, demonstrating strong public communication skills.
- College Representative – MCA Department, responsible for coordinating between students and faculty.
- Editor – College Magazine, managing content planning, team coordination, and editorial decisions.
- Second Prize – Venad Sahodaya Extempore Competition, showcasing analytical thinking and presentation skills.
